CONTENTS OF VOLUME 99

Vol. 99C, *Nos* 1/2

V. P. Chelomin and N. N. Belcheva	1	Alterations of microsomal lipid synthesis in gill cells of bivalve mollusc *Mizuhopecten yessoensis* in response to cadmium accumulation
J. J. Moreno, M. C. Castellote and J. Queralt	7	Effect of *Mycobacterium butyricum* on the hepatic cytochrome P-450 system of the mouse: influence of anti-inflammatory drug
R. Acierno, M. Axelsson, B. Tota and S. Nilsson	11	Hypotensive effect of atrial natriuretic factor (ANF) in the Atlantic cod, *Gadus morhua*
F. Chang, E. B. Jang, Chiou-Ling Hsu and L. Jurd	15	Effect of benzyl-1,3-benzodioxole derivatives on juvenile hormone binding by components of the hemolymph from the Mediterranean fruit fly, *Ceratitis capitata* Wiedemann
T. Kiss and O. N. Osipenko	21	Opposite effects of molluscan neuropeptides CARP and MIP on LVA Ca-currents in *Helix pomatia* L. neurons
R. Miettinen and H. Reunanen	29	Vinblastine-induced autophagocytosis in cultured fibroblasts
A. R. Del Angel Meza, C. Beas-Zárate, F. L. Alfaro and A. Morales-Villagran	35	A simple biological assay for relaxin measurement
M. Q. Chaudhry and N. R. Price	41	Comparative toxicity of arsine and stibine to susceptible and phosphine-resistant strains of *Rhyzopertha dominica* (F.) Coleoptera: Bostrychidae)
G. K. Kulkarni and M. Fingerman	47	Release of black pigment-dispersing hormone and distal retinal pigment light-adapting hormone upon electrical stimulation of the isolated eyestalk neuroendocrine complex of the fiddler crab, *Uca pugilator*
H. G. Richardson, M. Deecaraman and M. Fingerman	53	The effect of biogenic amines on ovarian development in the fiddler crab, *Uca pugilator*
H. Rothe, W. Lüschen, A. Asken, A. Willig and P. P. Jaros	57	Purified crustacean enkephalin inhibits release of hyperglycemic hormone in the crab *Carcinus maenas* L.
D. Schlenk, P. Garcia Martinez and D. R. Livingstone	63	Studies on myeloperoxidase activity in the common mussel, *Mytilus edulis* L.
T. Tsuda, S. Aoki, M. Kojima and H. Harada	69	Accumulation of tri-*n*-butyltin chloride and triphenyltin chloride by oral and via gill intake of goldfish (*Carassius auratus*)
T. B. Ng, S. L. Ng and D. R. Idler	73	Distribution of β-endorphin-like and adrenocorticotropin-like activities in various tissues of the winter flounder, *Pseudopleuronectes americanus*
T. Abe, Y. Tanaka, H. Miyazaki and Y. Y. Kawasaki	79	Comparative study of the composition of hornet larval saliva, its effect on behaviour and role of trophallaxis
N. J. D. Wright, J. Bagust and R. J. Walker	85	An initial study of the neuropharmacology of central neurones of the scorpion *Pandinus imperator*
B. J. Cook and R. M. Wagner	95	Comparative effects of leucomyosuppressin on the visceral muscle systems of the cockroach *Leucophaea maderae*
P. R. Laming and R. Lenke	101	Glutamate, not GABA, causes prolonged elevation of cardiac arousal responses in goldfish

E. Egaas, N. O. Svendsen, S. Kobro, J. U. Skaare and E. G. Jensen	105	Activities and properties of xenobiotic metabolizing enzymes in the peach-potato aphid (*Myzus persicae* Sulzer) feeding on paprika (*Capsicum annuum* L.) or swedes (*Brassica napus rapifera* Metzger)
S. Shoji	111	Effects of clofibrate on basal and insulin-activated glucose uptake in fast and slow skeletal muscles of rats
G. Sansone, M. Martino and P. Abrescia	113	Binding of free and protein-associated zinc to rat spermatozoa
G. A. Bonwick, P. R. Fielden and D. H. Davies	119	Hepatic metallothionein levels in roach (*Rutilus rutilus* L.) continuously exposed to water-borne cadmium
S. Theocharis, A. Margeli, C. Fasitsas, M. Loizidou and G. Deliconstantinos	127	Acute exposure to cadmium causes time-dependent liver injury in rats
S. Theocharis, A. Margeli and P. Panayiotidis	131	Effects of various metals on DNA synthesis and lymphokines production by human peripheral blood lymphocytes *in vitro*
B. C. Prezoto, E. Hiraichi, F. M. F. Abdalla and Z. P. Picarelli	135	Activation of the kallikrein-kinin system in plasma of some Brazilian snakes
J. E. Elliott, S. W. Kennedy, D. Jeffrey and L. Shutt	141	Polychlorinated biphenyl (PCB) effects on hepatic mixed function oxidases and porphyria in birds—II. American kestrel
M. S. Abrão, M. A. Visconti, A. L. M. Britto and A. M. L. Castrucci	147	Peculiar alpha-adrenoceptors promote pigment aggregation in the teleost, *Synbranchus marmoratus* melanophores
N. Azila, Foot Kee Siao and I. Othman	153	Haemolytic, oedema and haemorrhage inducing activities of tentacular extract of the blubber jellyfish (*Catostylus mosaicus*)
D. D. Sheumack, A. Comis, R. Claassens, E. J. Mylecharane, I. Spence and M. E. H. Howden	157	An endogenous antitoxin to the lethal venom of the funnel web spider, *Atrax robustus*, in rabbit sera
S. Egginton and O. Hudlická	163	The effect of torbafylline on enzyme activities in fast and slow muscles with limited blood supply
M. A. Pass and T. D. Mogg	169	Effect of amitraz and its metabolites on intestinal motility
L. Beani, C. Bianchi, G. Demontis, A. Pinardi and M. Piccolino	173	Modulation of the release of [^{3}H]-dopamine elicited by electrical stimulation in the turtle retina
P. H. Rudolph and E. Spaziani	179	Neurons demonstrable by nickel–lysine backfilling of the optic peduncle in the crab *Cancer antennarius*
M. Wilbrink, N. C. van de Merbel and N. P. E. Vermeulen	185	Glutathione-*S*-transferase activity in the digestive gland of the pond snail, *Lymnaea stagnalis*
R. Furushima, S. Takamiya, I. V. Okochi, K. Kita, T. Aoki and H. Oya	191	A comparative study of the effects of phebrol on the respiratory chains of rat liver, *Biomphalaria glabrata* and *Oncomelania nosophora*
R. M. Magee, I. Fairweather, C. Shaw, J. M. McKillop, W. I. Montgomery, C. F. Johnston and D. W. Halton	201	Quantification and partial characterisation of regulatory peptides in the liver fluke, *Fasciola hepatica*, from different mammalian hosts
C. Lippe and C. Ardizzone	209	Actions of vasopressin and isoprenaline on the ionic transport across the isolated frog skin in the presence and the absence of adenyl cyclase inhibitors MDL_{12330A} and SQ_{22536}
S. Mihok and B. Schwartz	213	Artificial induction of azurocytes in the meadow vole (*Microtus pennsylvanicus*)
S. Mihok and B. Schwartz	219	Origins and maturation patterns of azurocytes in the meadow vole (*Microtus pennsylvanicus*)

J. E. Stein, T. Hom, H. R. Sanborn and U. Varanasi — 231 Effects of exposure to a contaminated-sediment extract on the metabolism and disposition of 17β-estradiol in English sole (*Parophrys vetulus*)

O. L. Tulp, B. Szepesi, O. E. Michaelis IV and J. F. DeBouno Jr — 241 The effects of low-dose Bay-m-1099 (Miglitol) on serum lipids and liver enzyme activity of obese and obese–diabetic corpulent rats

A. I. Alayash, G. Godette, J. Bonaventura and J. Arnold — 247 Glycosylated hemoglobins in sharks: relevance to long-term blood glucose levels and erythrocyte survival

D. Goldman and A. Yawetz — 251 Cytochrome P-450 mediated metabolism of progesterone by adrenal microsomes of PCB-treated and untreated barn owl (*Tyto alba*) and marsh turtle (*Mauremys caspica*) in comparison with the guinea-pig

Vol. 99C, *No.* 3

O. G. Khatsenko, L. F. Gulyaeva, V. M. Mishin and V. V. Lyakhovich — 257 Dynamics of androstenedione metabolite formation in rat liver microsomes during temporal phenobarbital induction

J. L. Hernández, M. Castellanos, A. Garateix and R. Más — 263 Actions of quinidine on potassium-delayed currents from isolated neurons of the Cuban land snail *Zachrysia guanensis*

E. M. Karaseva and Yu. S. Khotimchenko — 269 Effect of the compounds elevating levels of cyclic adenosine monophosphate on oocyte maturation induced by arachidonic acid in the starfish *Aphelasterias japonica*

C. Zuazaga, A. Tatum, L. Lizardi and J. del Castillo — 273 Organic calcium channel blockers generate the coexistence of two different types of action potentials in the same muscle membrane following chemical induction of excitability

J. T. Borlakoglu, J. Stegeman and R. R. Dils — 279 Induction of hepatic cytochrome P-450IA1 in pigeons treated *in vivo* with Aroclor 1254, a commercial mixture of polychlorinated biphenyls (PCBs)

J. T. Borlakoglu, J. P. G. Wilkins, M. P. Quick, C. H. Walker and R. R. Dils — 287 Metabolism of [^{14}C]4-chlorobiphenyl by hepatic microsomes isolated from razorbills, pigeons and rats

M. S. Vatta, L. G. Bianciotti, M. L. Papouchado, A. S. Locatelli and B. E. Fernández — 293 Effects of atrial natriuretic peptide and angiotensin III on the uptake and intracellular distribution of norepinephrine in medulla oblongata of the rat

R. B. Hill — 299 Substitution of lithium for sodium blocks the depolarizing component of the response to low potassium in a molluscan muscle, the radular protractor of *Busycon canaliculatum*

V. A. Dyatlov — 305 Calcium influx in molluscan neurons enhances the acetylcholine-induced current: the role of calmodulin

H. M. Mousa and R. H. Davis — 309 Alternative sulphur donors for detoxification of cyanide in the chicken

M. H. Tsuhako, M. J. M. Alves, W. Colli, L. S. Filardi, Z. Brener and O. Augusto — 317 Comparative studies of nifurtimox uptake and metabolism by drug-resistant and susceptible strains of *Trypanosoma cruzi*

F. S. Messiha — 323 Genotype-treatment interaction between amantadine and chlorpromazine in the mouse

Y. Mugiya, T. Hakomori and K. Hatsutori — 327 Trace metal incorporation into otoliths and scales in the goldfish, *Carassius auratus*

J. W. Bowman, B. L. Lee, H. A. Whaley and D. P. Thompson — 333 Effects of dihydroavermectin B_{1a} and analogs on stretcher muscle of the lined shore crab, *Pachygrapsus crassipes*

A. L. Goldemberg, R. N. Farías and R. E. Trucco	341	Erythrocyte membrane-bound acetylcholinesterase in vitamin E deficient rabbits
M. D. J. Sayer, J. P. Reader, T. R. K. Dalziel and R. Morris	345	Mineral content and blood parameters of dying brown trout (*Salmo trutta* L.) exposed to acid and aluminium in soft water
H. Zaporowska and W. Wasilewski	349	Significance of reduced food and water consumption in rats intoxicated with vanadium
L. Tort and L.-H. Madsen	353	The effects of the heavy metals cadmium and zinc on the contraction of ventricular fibres in fish
A. M. Hilmy, N. A. El-Domiaty, M. A. Kamal, M. A. Mohamed and W. E. Abou Samra	357	Effect of some arsenic antagonists on the toxicity, distribution and excretion of arsenite and arsenate in rats
A. N. C. de Souza, J. A. Bruno and K. M. Carvalho	363	An enkephalin degrading aminopeptidase of human brain preserved during the vertebrate phylogeny
L. Gascoigne and A. McVean	369	Neuromodulatory effects of acetylcholine and serotonin on the sensitivity of leech mechanoreceptors
E. J. Carlini, B. A. McPheron, C. M. Felland and L. A. Hull	375	Elevated esterase activity in resistant tufted apple bud moth, *Platynota idaeusalis* (Walker) (Lepidoptera: Tortricidae)
R. Castaño, C. Culebras, C. Zazueta and E. Chávez	379	Protective role of chlorpromazine on lead-induced damage to heart mitochondria
V. Leskovac and A. D. Theoharides	383	Hepatic metabolism of artemisinin drugs—I. Drug metabolism in rat liver microsomes
V. Leskovac and A. D. Theoharides	391	Hepatic metabolism of artemisinin drugs—II. Metabolism of arteether in rat liver cytosol
J. R. Bloomquist, R. E. Grubs, D. M. Soderlund and D. C. Knipple	397	Prolonged exposure to GABA activates GABA-gated chloride channels in the presence of channel-blocking convulsants
K. S.-Rozsa, G. Stefano, J. Salanki and D. O. Carpenter	403	Characterization of responses to enkephalins and FMRFamide on B neurons of the cerebral ganglion of *Aplysia*
L. A. Marco, R. S. Joshi, N. J. Cepeda and D. B. Rhyne	413	Unitary correlates of linguo-pharyngeal events in a dyskinetic rat model
R. Schipp, P. M. Jakobs and A. Fiedler	421	Monoaminergic–peptidergic interactions in neuroregulatory control of the cephalic aorta in *Sepia officinalis* L. (Cephalopoda)
D. C. Reddy, V. Kalarani and R. W. Davies	431	Tissue ATPase activity and recovery in the freshwater crab *Oziotelphusa senex senex* exposed to a sublethal concentration of endosulfan for varying periods of time
J. C. Glover and C. M. Lent	437	Serotonin is released from isolated leech ganglia by potassium-induced depolarization
F. S. Messiha	445	Benzyl alcohol adverse effects in the rat: implications for toxicity as a preservative in parentral injectable solutions
A. J. Chu	451	Inhibition of endotoxin-induced monocytic procoagulant activity by *n*-alcohols and anesthetics
R. Fløysand and G. Serck-Hanssen	457	Determination of tissue content of catecholamines in Atlantic salmon (*Salmo salar*): a comparison of HPLC–EC and the trihydroxyindol fluoremetric method
Nget-Hong Tan, A. Arunmozhiarasi and G. Ponnudurai	463	A comparative study of the biological properties of *Dendroaspis* (mamba) snake venoms

T. Nasu, S. Zakimi and H. Shibata	467	The recovery from the relaxant effect by ouabain and the metabolic dependency of K^+ contractions in guinea-pig taenia coli
T. Nasu, S. Zakimi and H. Shibata	475	Effects of hypoxia on the contractions and lactate release induced by high-K^+, ouabain and epinephrine in guinea-pig aorta
T. Piek, B. Hue, P. Mantel, T. Nakajima and J. O. Schmidt	481	Pharmacological characterization and chemical fractionation of the venom of the ponerine ant, *Paraponera clavata* (F.)
T. Piek, A. Duval, B. Hue, H. Karst, B. Lapied, P. Mantel, T. Nakajima, M. Pelhate and J. O. Schmidt	487	Poneratoxin, a novel peptide neurotoxin from the venom of the ant, *Paraponera clavata*
E. Aiello, J. Kennedy and C. Hernandez	497	Stimulation of frog ciliated cells in culture by acetylcholine and substance P
P. Sivasubramanian	507	FMRFamide-like immunoreactivity in the ventral ganglion of the fly *Sarcophaga bullata*: metamorphic changes
N. S. Hawkins, J. Hearn and R. H. Evans	513	Comparison of the capsaicin- and amino acid-sensitivity of dorsal root C fibres in the rat and the toad
R. Cantera and D. R. Nässel	517	Dual peptidergic innervation of the blowfly hindgut: a light- and electron microscopic study of FMRFamide and proctolin immunoreactive fibers
P. J. Bentley	527	Accumulation of cadmium by channel catfish (*Ictalurus punctatus*): influx from environmental solutions
Y. Harari, R. Calabuig, F. Moody and G. Castro	531	Immunological sensitization of opossum gallbladder by naturally acquired stomach roundworm infection
G. R. Noel and S. O. Mayasich	537	Partial characterization of soluble esterase from *Heterodera glycines* and inhibition by aldicarb and phenamiphos
H. M. Brown-Borg, F. W. Edens and P. M. Grant	541	Catecholamine- and endotoxin-influenced cutaneous basophil hypersensitivity in chickens
H. M. Brown-Borg and F. W. Edens	547	Tissue monoamine and plasma corticosterone concentrations following sympathetic alteration during acute endotoxicosis in chickens
A. P. Farrell and P. S. Davie	555	Coronary vascular reactivity in the skate, *Raja nasuta*
F. H. Armstrong and K. C. Lowe	561	Effects of emulsified perfluorochemicals on liver aryl esterase in rats
H. Barreteau, C. Perrière, P. Brousse-Gaury, P. Gayral, C. Jacquot and F. Goudey-Perrière	567	Indolamines in the cockroach *Blaberus craniifer* Burm. nervous system—I. Fed and crowded young females
K. Irie, K. Furukawa, T. Muraki, N. Oike and T. Nomoto	573	Response to opioids of isolated small intestine in the house musk shrew, *Suncus murinus*
U. Altrup, A. Lehmenkühler and E.-J. Speckmann	579	Effects of the hypnotic drug etomidate in a model nervous system (buccal ganglia, *Helix pomatia*)
	589	Announcement
	591	Corrigendum
